

# SALES CALL SIMULATION ACTIVITY

TRAINEE BRIEFING SHEET

SCENARIO: CARLA REYES

## 1. SCENARIO SETUP

### BUYER PROFILE

Carla Reyes, Owner, Studio Collective Salon (6 independent stylists renting booths)

### BUYER STYLE & DIALOGUE GUIDE

Supporter. Relationship-driven, warm, and collaborative. Reassurance is key. Dialogue Pace: maintain 50/50 balance, check in every 1-2 sentences. Avoid high pressure or complex jargon.

### TIME CONSTRAINT

10 minutes (brief discussion on checkout operations)

### DESIGNATED PRODUCT

Roc Terminal+ (Multi-merchant split payment terminal)

### OPENING STATEMENT

"Hey Carla, thanks for taking the call. I know running a busy salon keeps you on your feet, so I'll keep this quick. When we talked last week, you mentioned you guys were dealing with some checkout confusion at the front desk, a disjointed payment experience for clients, and a lot of manual reconciliation at the end of the day. Does that still sound like the main challenges?"

## 2. DISCOVERY & VALUE ALIGNMENT

| CUSTOMER NEED<br>(When they say...)                                                                                                  | PRODUCT FEATURE<br>(We explain...)                                                                                           | VALUE & BUSINESS IMPACT<br>(Which means...)                                                                                             |
|--------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Shared Reception Confusion</b><br>Desk gets chaotic with booth renters using multiple payment apps or personal readers.           | <b>Multi-Merchant Split Payments</b><br>Allows independent booth renters to accept payments on a single physical terminal.   | <b>Stress-Free Reception</b><br>Routes funds directly to individual stylist accounts, keeping business finances separate.               |
| <b>Disjointed Client Experience</b><br>Clients pay stylists via cash or personal apps, slowing checkout and feeling unprofessional.  | <b>Unified Client Checkout</b><br>A high-end payment terminal interface accepting tap, chip, and mobile wallets in one spot. | <b>Premium Brand Perception</b><br>Gives clients a sleek, professional checkout experience that matches the high quality of your salon. |
| <b>Manual End-of-Day Reconciliation</b><br>Spent hours sorting through payments to calculate booth rentals and stylist transactions. | <b>Simplified Reporting</b><br>Tracks rental dues and individual transactions automatically in the back office.              | <b>Time Savings</b><br>Saves hours of bookkeeping every week and prevents stylist accounting errors.                                    |

### 3. OBJECTION RESPONSE & NEXT STEPS

#### OBJECTION RESPONSE

##### EXPECTED OBJECTION

"I'm just worried my stylists won't want to use it. They aren't very tech-savvy and hate when we change things on them."

##### RECOMMENDED DIALOGUE PATH

- **Step 1 (Cushion):** "I completely get that. Your team's comfort is the most important thing here."
- **Step 2 (Explore):** "Just to make sure we address it right, are they mostly worried about a complicated setup process, or is it more about the daily learning curve of using the app?"
- **Step 3 (Solve):** Explain that we provide dedicated, hands-on training for each stylist so they feel comfortable before we go live.
- **Step 4 (Commit):** Pivot back to the demo to show how straightforward the stylist interface is.

#### NEXT STEPS

##### TARGET COMMITMENT

Secure a scheduled 15-minute demo.

##### CLOSING STATEMENT

*"Let's grab 15 minutes to do a quick demo and I'll show you how simple it is for your stylists to track their own sales. Would Tuesday morning or Thursday afternoon work best for you?"*

### 4. CRITICAL GUIDELINES

**Product Focus:** Pitch the multi-merchant terminal solution Roc Terminal+. Pitching standard retail terminals instead of Roc Terminal+ is a failure.

**Reference Prior Connection:** Establish continuity by referencing the previous scheduled appointment. Do not open the call as a cold call.

**Avoid Technical Jargon:** Use simple, direct language. Do not reference internal sales framework terminology.

**Objection Validation:** Validate customer objections before responding. Do not argue or become defensive.

| DO THIS                                                    | AVOID THIS                                                            |
|------------------------------------------------------------|-----------------------------------------------------------------------|
| Pitch Roc Terminal+                                        | Pitching the wrong product (single-merchant terminals)                |
| Discuss client checkout experience and receptionist relief | Using overly technical card processing or payment routing jargon      |
| Validate and address objections collaboratively            | Arguing, getting defensive, or ignoring customer concerns             |
| Engage in two-way conversation and checkpoints             | Monologuing or speaking without checking for agreement from the buyer |

## 5. TRAINEE SELF-CHECK CHECKLIST

Reference while completing the simulation activity. Use this checklist as a self-assessment to ensure you have met all L&D guidelines and avoided critical pitfalls.

- ☐ **Did you confirm their challenges early?** Verified the three setup issues during your opening rather than jumping straight into a product pitch.
- ☐ **Did you explain the concrete business benefits?** Connected product features back to customer value (such as the specific labor or financial math).
- ☐ **Did you keep the conversation balanced?** Avoided long monologues by checking in after every 1-2 sentences to get confirmation from the buyer.
- ☐ **Did you focus only on relevant features?** Sticking strictly to the tools that solve their specific problems without dumping unrelated facts.
- ☐ **Did you use the 4-step objection path?** Validated their concern (Cushion) and asked a question to explore it before presenting a solution.
- ☐ **Did you close with a scheduled next step?** Secured a specific commitment for a 15-minute demo instead of leaving the follow-up vague.

### SIMULATION PERFORMANCE SUMMARY

To be completed by the trainee or evaluator after the session.
